Library Instruction Courses

LIB R100—Internet & Library Research Skills 2 units

1 hour lecture, 3 hours lab weekly

Course is designed to make students expert researchers on the World Wide Web and other electronic information systems. Skills to be learned: searching computerized library catalogs, making interlibrary loan requests and using CD-ROM databases. Students will also receive instruction in the application of Boolean searching techniques, proper citation of online and conventional sources and critical examination of information accuracy. Researchers will also learn when printed sources must be used and why. The course content is applicable to all subject areas. Field trips may be required. (2)
